Legal advertisements inserted at the rates fixed by law.

Annoyed candidates for heat or city offices, two dollars and a half; County, five dollars; District and State, ten dollars; invariably in advance.

Jute Culture in Mississippi.

A convention of the planters and farmers will be held at Jackson, Miss., on the 17th of Jan. 1883, to take into consideration the cultivation of jute in the State of Mississippi. Mr. T. Albee Smith will be present and will explain his jute machine. This convention is called at the request of many planters and farmers in Mississippi and Louisiana. E. G. WALL, Commissioner of Agriculture.

The New Orleans Cotton Exchange refuses to assist in raising the \$500,000 necessary for the proposed Centennial Cotton Exposition for 1884.

Forty years experience has stamped public approval on Ayer's Cherry Pectoral, as the most reliable of all remedies for Throat or Lung disease. Its continued and increased popularity is conclusive evidence of its superior curative qualities.

THE ARGUS.

The Executive Committee of the Prohibition Union of Mississippi has made arrangement for a State Organ of this great movement. It is impossible for any great reform to make success in headway without an official organ. It is well for the Prohibition Union that they have secured on hand now what rests with the friends of temperance to extend to the paper that supports that will enable it to take rank as one of the leading weeklies of the State. The support given to this paper will very nearly show the real strength of the movement, and whether its friends are in earnest in trying to rid the country of the "Matchless evil."

The paper will be a 28-column weekly, price two dollars, will be published at Clarksdale, Miss., to which place all subscriptions must be sent. The first number will be out by the middle of this month.

Ayer's Pills are the best of all purgatives for family use. They are pleasant, safe and sure, and exceed all other pills in healing and curative qualities.

The INTERNAL revenue collected in Mississippi, according to the report of the register of the treasury, for the fiscal year ending June 30th, 1882, amounted to \$37,314.63, and the expenses for assessing and collecting the same are placed at \$20,832.70, leaving net proceeds of internal revenue for the government, \$66,481.48.

—Rev. George F. Pentecost, the noted evangelist, says in the Independent that the conversion of sinners is becoming a lost art. "The fact is sad and stubborn that in the great cities of churches, where the talent, wealth, culture, leisure, and opportunity to do revival work abound, there the number of conversions is in an inverse ratio to the facilities." He attributes this to what he calls the overfeeding of the churches. Too much food and too little work result in surfeit and torpor and that is where he thinks the trouble lies.

For Colds, Coughs, Bronchitis and affections of the Lungs, take Ayer's Cherry Pectoral.

THREE thousand persons viewed GAMMETTA's remains the day of his death.

CHALMERS-MANNING MANDAMUS CASE.

The 26th ult., was the day appointed to hear this case on the petition filed by the District Attorney, on the petition of J. R. Chalmers, for a writ of mandamus, and a rub upon the Secretary of State for refusing to obey an order of Judge Wharton's, upon a petition previously filed by J. R. Chalmers, requiring him to suspend the count of votes of Tate county, or to count the same for said Chalmers.

The counsel for the Secretary of State, Messrs. E. M. Watson and L. Brane, filed a plea in abatement, setting up the penitency of the former petition. To that plea counsel for J. R. Chalmers, viz. Messrs. Nagent and McWillie, filed a demur—after argument, the court overruled the demur and dismissed the petition last Friday. The ground upon which the demur was overruled by the court was that all the matters furnished in the second, would arise on the hearing of the first petition. The court stated that if at the hearing of the first petition, its jurisdiction was sustained, a rule for contempt of its proof would be taken against the Secretary of State for disobeying the order granted on the first petition, if on the contrary, jurisdiction was denied the Secretary of State would be exonerated for disregarding an order which was received.

The case on its merits, will be tried next week.—Jackson Comet, 6 h.

The Superintendent asks Congress for \$100,000 to complete the census.

For the Advertiser.]

An Acrostic.
Written on James A. Garfield's name, symbolizing with his wife's in her patient and long suffering in view during her dear husband's sickness and death.

BY BENJ. HAWES.

Just think how the great American nation did suffer in mind At the death of their dear President —James A. Garfield, so patriotic and kind.

Mother, wife, children all—but especially dear little Meshie—oh, how they did weep!

Every civilized nation abroad did sincerely share in their grief.

Shot down by a wicked assassin without any just cause—

A man duly elected by fifty millions of freemen to execute their laws;

Behold how kind and sympathetic was England's noble Queen,

Requesting that a wreath of flowers be placed upon his coffin, out of pure esteem.

And now, Mrs. Garfield, I know that you have suffered in mind more than I can tell.

May you not now, and also in the future, be resigned to the will of Him, who doeth all things well?

God has caused you to suffer—His ways are hard to understand;

And shall we receive blessing, and not receive evil from his gracious hands.

Religion, that's pure, is all that can truly make you contented;

For, if we risk all upon riches, we may in the end sorely repent it.

In conclusion let me, as a friend living in Mississippi, wish you well;

Every one in the South, irrespective of party, respects you and on your name loves to dwell.

Long may you live, to raise your children up both virtuous and true;

Do this and live happy. So now Mrs. Garfield, I bid you adieu.

It is said that Gen. Butler has discovered, in collecting statistics for his message, that 65 per cent of "The Massachusetts Charitable Institutions Fund" is appropriated as salaries by well-greased officials. There'll be wailing and gnashing of teeth when Ben. Butler begins the processes of reformation in Massachusetts.

VIOLATIONS of the Sunday laws are little noticed now in New York.

TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause—liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

This fact! Brown's IRON BITTERS, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old druggists and in every particular reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially "bitters," are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's IRON BITTERS. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00.

CHICKASAW ROUTE, MEMPHIS & CHARLESTON RAIL ROAD.

Two Daily Passenger Trains.

SCHEDULE On and after Aug. 27, 1882

as follows:

GOING EAST.	EXPRESS	MAIL & EX.
